MONETARY AND COM. TERCIAL.

Things financially and commercially are quiet, the oppressive weather of the past few days having a very lethargic tendency. Receipts of grain -especially wheat-continue good, but prices have been only fairly sustained. Money matters are about as last week, there being no superabundance of capital nor any pressing demand. Bultimore papers report an easy money market there; indeed, in all the leading centres there is an over abundant supply of capital and a very irregular demand. In Baltimore prime business paper is readily made at 4 per cent, the character of the collateral being more of a consideration than the time or amount of the loan. In New York 3 per cent is the ruling rate at the Stock Exchange, with 2 per cent on U.S. bonds. Time loans and mercantile paper are 3445 per ct. U. S. bonds continue quiet, and closing quotations at New York yesterday were generally a lower, except for the new 5 per cents and 41 per cents; the 4 per cents sold yesterday at 102. State securities are firmer, with moderate offerings. Vir- for old Speep, and diaste per lb for Lambs, with giola consols het higher, \$10 8.0 selling at 575 158. 10-40s are quoted 105,407, an advance of 4. Coutons were held at 811 with 802 bid, and a
